

VED GRAVEN, NORDRE GRAVLUND

FAGER KVELDSOL SMILER

Fager kveldsol smiler  
over heimen ned,  
jord og himmel kviler  
stilt i heilag fred.

Så mitt hjarta stundar,  
bankande i barm,  
til eg eingong blundar  
i Guds faderarm.

*Takk for at du er med oss i dag.*

MUSIKKAVSPILLING

ENDLESSLY MED AMARANTHE

Now come, let me be your light. There's a truth we can't defy.  
Somehow this time you won't deny it. What got lost inside.  
I have found it now. There's a reason why.

I will love you endlessly. And even if I cry.  
I'll be there by your side. For a lifetime.  
And I will love you endlessly. And even when we die.  
You'll be there by my side. Endlessly.

So come, let me be your life. After all these sleepless nights.  
Somehow I know my strength will guide you. Through the darkest  
times. Now that I have found. All the reasons why.

I will love you endlessly. And even if I cry.  
I'll be there by your side. For a lifetime.  
And I will love you endlessly. And even when we die.  
You'll be there by my side. Endlessly.

You know me well. Somehow I'm under your spell.  
I want you to see me and share every moment with you.

'Cause I...

I will love you endlessly. And even if I cry.  
I'll be there by your side. For a lifetime.  
And I will love you endlessly. And even when we die.  
You'll be there by my side. Endlessly.
